

## THE DAILY BULLETIN.

FRIDAY, APRIL 10, 1885

RICHARD GRANT WHITE died at New York on the 8th instant.

EX-MAYOR JACOBS, of Louisville, is said to be an applicant for the Austrian Mission.

The Democrats made a clean sweep at Madison, Wis., and a Democratic Mayor was elected at Kansas City.

EX-CONGRESSMAN VAN ALSTINE, of New York, says President Cleveland's policy will be received in that State.

GENERAL FITZHUGH LEE is prominently named for the office of United States Marshal for the District of Columbia.

No change for the worse is reported in the condition of General Grant and it is probable he may live for several weeks yet.

LEADING Illinois Democrats assure General Black that he can be elected to the Senate from that State if he will enter actively in the canvass.

A DISPATCH from Berne states that the United States Minister to Switzerland, Mr. M. J. Kramer, has been recalled. The dispatch adds that Mr. Kramer's interference with the Swiss Government's measures against the Salvation Army people has made him generally disliked there.

ATTORNEY GENERAL GARLAND has rendered a decision in which he holds that President Johnson's pardon of General Lawton, of Georgia, removes his political disabilities and renders him eligible to the Russian Mission. General Lawton will be re-appointed and will start to St. Petersburg in a few days.

A DISPATCH from Frankfort says: It is said that a young married man and a life long Republican, a store-keeper in this district, recently wrote to Secretary Manning stating the facts, and saying if allowed to retain his office he would now vote the Democratic ticket. The Secretary caused him to be removed at once.

A STATEMENT prepared at the Treasury Department based on the latest returns show the excess of available assets over the demand liabilities of the Government to be \$16,118,092. According to this statement the net cash is \$306,393,664 and the net liabilities \$189,445,572. This statement is prepared under the new form which the fractional silver coin is omitted as an asset and the \$100,000 reserve is treated as a liability.

The Philadelphia Record says: "The ineradicable foolishness of knaves is one of the most beautiful of natural phenomena. The New York Legislature is monkeying with a "Freedom of Worship" bill, providing for sectarian service in the State institutions, not because the Republicans approve of it, but simply because it is desired to put upon the Democratic Governor the responsibility of vetoing it, and thereby alienating some of the Irish Catholic vote. There is nothing more un-American or deplorable than the practice of lugging religion into party politics. It is gratifying to remember that bigotry or hypocrisy never yet loaded a gun that did not kick harder at the breach than it shot at the muzzle."

The Harrisburg (Pa.) Patriot says: There was in the history of American politics no individual who had greater or more varied experience, or had a more comprehensive understanding and better judgment, than the good Democrat William L. Marcy, of New York. His connection with public affairs extended through twelve years of service under the State Government of New York and eight years as the head of the State and War Departments at Washington.

Upon a certain occasion, after the party to which he belonged had achieved a political victory, he remarked in a speech that in such cases the doctrine that "to the victors belong the spoils" should be observed. This sentiment is said to have originated with another great Democrat, Andrew Jackson. Mr. Marcy adopted it as being correct in principle, and when called to account for advocating a doctrine that was calculated to demoralize public service, he said that what he meant by it was that an administration should have the right to select such officers under it as would be most in sympathy with its policy, and therefore the most reliable and helpful in carrying out the objects it had in view. This is certainly a correct construction of a doctrine that has been misinterpreted and inconsiderately condemned. If the policy of a party is of any account the choice of the instruments necessary to carry it out is certainly of importance. Success is an object it would be folly to expect if the work is put in the hands of agents who are hostile or indifferent.

The soundness of the doctrine of General Marcy is indisputable when reduced to the question: "Should an administration select its enemies or its friends to carry out its policy?"

## THE WHEAT PLANT.

Scattering Report or Its Condition and Prospects.

CLARKSVILLE, Mo., April 10. — The wheat in this section is badly damaged and the prospect for over half a crop is poor. Your advertiser has endeavored to find out the actual condition of wheat in the fields in this neighborhood, and has interviewed farmers living on the railroad south of here as far as St. Peters. They all say they will not have forty per cent of last year's crop. Some have plowed their wheat lands and planted corn or oats; a few are experimenting with spring wheat. The weather has been very dry here all the spring and there has been very little rain.

LAWRENCE, Kan., April 10.—A fine rain set in, which is greatly needed by wheat but the reports concerning the prospects of this cereal in Kansas are very discouraging.

WICHITA, Kan., April 10.—The wheat crop has had a poor yield than a few weeks ago. The fruit, vegetables and berries will be abundant this year.

SAN FRANCISCO, Cal., April 10.—Light rains during the last fortnight have greatly improved the wheat crop, and nearly all sections of the state, excepting the San Joaquin valley. The state has now had all the rain necessary to insure good average crops.

## SEVERE Dynamite Law.

HARTFORD, April 10.—At the time of the dynamite outrages in London, a bill designed to prevent such troubles in Connecticut was introduced in the legislature. The bill, however, had long been referred to other events, but when the bomb came up in the house it was promptly passed with only one dissenting voice. It provides a maximum penalty of \$5,000 for causing a dynamite explosion for any one cause, and like punishment for any one causing the explosion in his possession, knowing it to be used to destroy property; also like penalties for contributing to, or advertising the use of, or actually using dynamite for such unlawful purposes. The killing of any person with dynamite is added to the list of crimes punishable in this state with the death penalty. The bill, however, makes it difficult for dealers in such explosives and a rigid supervision of such persons for any purpose.

One of Those "Masters of Time."

LAREDO, Tex., April 10.—Marcellus Dougherty, a desperado widely known along the Rio Grande, was shot and killed by a negro named White. Dougherty had lately killed a man in California, and, while White was shot to the number, Dougherty would cause him trouble. Dougherty resolved to kill him and sought out White for that purpose. As Dougherty approached White on the street, the latter fired first. One bullet passed through Dougherty's heart and other went through his bowels. It is believed White will be released, as the killing is generally approved.

## TOPICS OF THE TIMES.

THE HERO OF APPOMMATTOX RESTING QUIETLY AND SLEEPING.

War News in New York Creates a Panic. Wheat Rooms with a Vengeance. Strategic for the "shorts"—National Affairs and News Notes.

New York, April 10.—Gen. Rosecrans, a famous confederate cavalry leader, called at the house to inquire after Gen. Grant and express his sympathy. He was invited up to see the general and paid his respects in person, remaining with him for some time.

On leaving the night about 10 o'clock, Gen. Bedon said that no danger was apprehended by the household and they were preparing to retire for the night. No bulletin has yet been issued. The house is still quiet and there is no indication that the general has awakened.

"Gen. Grant slept eight hours during the night and awoke feeling much refreshed. His pulse is 64, reasonably full, and temperature normal." (Signed) "SHADY."

At 7 o'clock, after a sleep of nearly eight hours, Gen. Grant awoke. He was dressed and eating the breakfast which had been prepared for him. Suddenly and in his family retired soon after the patient dropped asleep, and did not rise until breakfast time. For the past forty-eight hours the general has slept only on his reclining chair, as he prefers it to the bed, and has been unable to get a good night's sleep, notwithstanding the night watch. Shortly after 9 o'clock Gen. Romero called and remained some time, and upon a long consultation with the physician, the general's condition was considered to be favorable.

Dr. Shadley said he has no fears of an immediate return of the hemorrhage. That is the only danger just now which threatens the patient's life. Dr. Shadley considered the patient's condition to be favorable, and immediate medical attendance is unnecessary, and after giving the nurse some directions he left the house, saying he would not be back until four o'clock in the afternoon, in time for the next watch, when he would return. This is the first time the doctor's have left the general's side for over two weeks. The general is now doing quietly under the influence of an analgesic.

### Exciting Scenes.

New York, April 10.—The scene at the new produce exchange at its opening was one of the wildest excitement. The news of the commencement of hostilities in Afghanistan and the recent arrival of news of war against Russia, by England created the most rapid upward movement in wheat the new exchange ever witnessed. A large number of persons who were short on May wheat resold it at a premium of 100 dollars, and were badly squandered in covering shortages. May wheat closed yesterday at 93¢. This morning it opened at 94 and jumped immediately to a time up to 101½, an advance of 7½¢.

Short interest was large and the pronounced dull movement created the greatest panic among the bears that has occurred for many years. No failures are yet reported, but it is believed that many small brokers will go under on account of the war news from Europe.

About midday there was some selling to realize, causing a fractional reaction, but it has since been more than recovered.

### Reynolds' Spanish Mission.

New York, April 10.—Word has reached that Gen. Reynolds, dated Liberton, April 8, confirms the death of Barrios and the defeat of his army. The Nicaraguan troops entered Honduras, routing the enemy who retreated to the south. The battle of La Victoria was fought near San Salvador. It is expected this will end the trouble without another shot. Probably both armies will march on Guatemala city. The situation at Colon is unchanged.

### Hurries Surface Dead.

WASHINGTON, April 10.—A dispatch from Commander Moran, dated Liberton, April 8, confirms the death of Barrios and the defeat of his army. The Nicaraguan troops entered Honduras, routing the enemy who retreated to the south. The battle of La Victoria was fought near San Salvador. It is expected this will end the trouble without another shot. Probably both armies will march on Guatemala city. The situation at Colon is unchanged.

### A Pittsburgh's New York Venture.

PITTSBURGH, April 10.—L. Whitney, of this city, has purchased the Bijou Theatre, in New York, and will open it on April 15. He was the sole owner of the property in securing a loan of \$25,000 from the Metropolitan life insurance company, and advancing that amount to the builder of the theatre, Mr. Jameson, to cover the necessary funds for the completion. General Barton will manage the new concern.

### Both to Blame, Both Suspended.

BALTIMORE, April 10.—Steamboat Inspectors Neville and Valentine gave their decision in the case of the collision between the steamships Belvoir, of Boston, and the Providence, March 17th. They agreed in the opinion that Captain Lethbridge of the Providence, and the pilot, E. F. Small, of the Berkshires, are equally to blame. Both parties are suspended as master and pilot of steam vessels for ninety days.

### An Orphan's Fatal Fall.

BALTIMORE, Md., April 10.—Leon T. Billmeyer, aged seven years, fell over the balustrade of the fourth floor of the home of the friendless child, and was severely injured, so that he died. The little fellow's mother was obliged to place him in the institution because she had to work during the day for her support. She states that her husband Oliver Billmeyer deserted her some time ago leaving her penniless.

### A Young Girl's Tragedy.

MICHIGAN CITY, Mich., April 10.—Mrs. John Wardenhouse, bequeathed from the stone arch bridge into St. Anthony's falls and disappeared beneath the water. Her husband was formerly a well-to-do resident of Minneapolis, but lately has been past trader at Sisseton agency. There has been for some time no arrangement, and her suicide was undoubtedly caused by insanity.

### A Young Daughter.

SAN ANTONIO, Tex., April 10.—A male pigeon shot below Dr. Carver and A. L. Pearson, the San Angelo cowboy, for \$500 a side, one hundred yards, thirty yards wide, has come off. Pearson won, score 90 to 81.
